

**Peopletoo**  
it works better with you

# Social Care Enhanced Insights

## About the service

Our Social Care Enhanced Insights service lets finance and social care professionals to identify opportunities for improvement and make informed decisions based on benchmarking, data analysis and good practice in the sector.

The service comprises of a dynamic dashboard that can be easily accessed and is supported by two facilitated workshops with Peopletoo and CIPFA with write ups from each workshop with insights to help you understand the opportunities available to you to deliver improvements and savings.

---

**CIPFA and Peopletoo are dedicated to helping local authorities deliver quality social care and public services to their communities.**

**Together, we are ready to support public sector organisations in addressing issues to achieve better outcomes for children's services and adult social care.**

# The key benefits

By subscribing to our Social Care Enhanced Insights service, we can help you:

Understand your organisation's costs, demands and performance.

Gather key management information and provide assurance in comparison to other regional local authorities and to nearest statistical neighbours.

Review performance trends and identify areas for improvement.

Highlight opportunities where savings could be made through better management of costs and demand.

Further inform discussions with your integrated care system (ICS).

Network, exchange insights and good practice.

Once subscribed, you can provide your data via two short and simple questionnaires, which will be uploaded into our systems and analysed by our experts.

## Contact us

For more information about this service and how to sign up, contact:

+44 (0)20 7543 5600

In addition to access to our informational platform, our Social Care Enhanced Insights service includes two two-hour workshop with your team, to:

Provide a detailed understanding of performance and costs, including comparisons against statistical neighbours and best practice.

Delve into the detail of what your benchmarking data really means, considering the local context and your current financial plans and transformation programmes.

Explore the potential challenges and opportunities that exist to improve performance, outcomes and better manage costs.

Produce actionable insights, recommendations and strategies that your teams can implement moving forward. These can include but are not limited to:

- financial savings
- service improvement for social outcomes
- assurance of existing costs, savings plans and growth projections.
