

# The CIPFA Pensions Network Workshops

## LGPS Governance

This on-line event will seek to identify good practice in LGPS governance arrangements by considering:

- The role and remit of local pension boards
- The importance of knowledge and skills training for officers, non-executive and elected members
- How best to manage committee agendas, minutes and reports

We will also provide an update on the Scheme Advisory Board's Good Governance project and consider how governance arrangements are developing to provide effective oversight of asset pool arrangements.

This event is aimed at both Investment, Finance and Governance Officers involved in the LGPS and we will use the experiences of Network colleagues to share "real-life" examples of work done to date.
