Progress tests and mock exams must be submitted by these deadlines.

* For students planning to enrol for a pair of modules, where feasible the following combinations are recommended:

- Financial Accounting / Management Accounting
- Audit & Assurance / Company Financial Reporting
- Business and Change Management / Financial Management
- Strategy and Policy Development / Public Service Financial Reporting
- Corporate Governance and Law / Taxation
- Strategic Public Finance / Strategic Case Study

** For students who are exempt from the Financial Accounting (FA) module, we strongly recommend enrolling for our online Financial Reporting (FR) Introduction course prior to starting study of the CFR module. This course covers the core content of the FA module that supports the CFR module. Enrolment provides access to online tuition sessions, extensive workbook materials and a CETC tutor to resolve any queries with understanding of the material.

*** Optional Tutorials:

In order to offer greater support, we will be supplementing our web class tuition with optional online tutorials for some modules and additional resources for those modules with no tutorials.

Each tutorial group will have smaller number of students. The number of tutorial sessions across a course will vary module by module. Each tutorial day will be broken down into several tutorial group sessions of between 60 and 90 minutes each. These tutorial sessions will give you more access to tutor support to enhance your learning and preparedness for the examinations.

We will be allocating students to tutorial groups and sessions when we have final numbers. Joining instructions for tutorial groups will follow within two weeks of the course start date. These joining instructions will also include links for you to register for your tuition and tutorial sessions.
